Step 7: Add first kitten:

CAT

Required fields are marked with *

Cattery name	DemoCats	
Sire	NCT 2008-7422 Union Jack's Muffin BSH b	
Dam	(NL) MU.LO.2022417 A-Paarsje van de Bonte Kraaien BSH g	
* Name (excluding cattery name)	<input type="text" value="Testkitten"/>	18/35
* Sex	<input type="text" value="Male"/>	1
* Date of birth	<input type="text" value="27-9-2024"/>	
Microchip number	<input type="text" value="52821325622222"/>	15/15
EMS code (genotype)	<input type="text" value="BSH e"/>	
Enter EMS-code	<input type="text" value="BSH e"/>	<input type="button" value="Confirm EMS-code"/>
* Breed	<input type="text" value="Select"/>	
Colour	<input type="text" value="Select"/>	
Silver / Golden	<input type="text" value="Select"/>	
Amount of white	<input type="text" value="Select"/>	
Pattern	<input type="text" value="Select"/>	

Enter name of kitten 1 (cattery name NOT included), sex and Microchip number (if already available), you will need this later to complete your pedigree application.

Enter the EMS-code in the search bar (here BSH e) and click the blue button “Confirm EMS code”. The text in the search bar will disappear.

Then click ‘Save’ (if only 1 kitten) or ‘Save and enter next kitten’ if you have more kittens in the litter. And repeat process until all kittens are added:

Step 8: check the litter and proceed to payment screen
